***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/29/06 has been entered.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-3, and 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The "step of machining" makes it unclear to which machining step it is referring. Is it the machining part forming the helical grooves or forming a tubular configuration?

***Allowable Subject Matter***

Claims 1,4-5,14-17, 20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the cited prior art fails to disclose or reasonably suggest a method of making a piezoelectric transducer comprising machining a material blank into a tubular configuration to form a ceramic tube, coating the ceramic tube in combination with

Art Unit: 1731

machining helical grooves in the metal coated ceramic tube and transforming the tube in a piezoelectric crystal.
